

Mr Taylor, the 'Maths Magician,' came into St. Theresa's Catholic Primary School and he showed Year 6 how to play different maths games. They would then be working with each class from Year 1 to 5 showing the children how to play the maths games.

A couple of days later, Mr Taylor came back for the actual Maths Day. Year 6 worked with years 1 to 5 on these games, held in the main hall. Some of the children's parents came to help their sons and daughters to play the maths games; they seemed to enjoy it. Every class enjoyed the games and they can't wait to do it again soon.

Anti-Bullying Week

Over the week the whole school discussed and thought about bullying: Who bullies? Why? When? Where? and how we can prevent and stop it from happening. Each class worked on an assembly which they performed as an Assembly in the Round. Singing, poetry and drama were used to get our anti-bullying message across. It went well and the children learnt a lot.
