

# SHARING OUR CLASSROOMS

***Parents at Holy Spirit Catholic Primary School have done it again. For the third year running they have turned up in droves to support the school and their children's education.***

Each year the numbers taking part in SHARE in the Reception class have increased. It shows the commitment of both the parents and the school in working together in partnership.

SHARE has become a big part of the lives of all involved and each week they keep coming whatever the weather.

And it's not just mums who turn up, we have lots of dads, granddads, nans and even a great gran!

The children's parents and relatives begin the session on their own when they find out how their child learns and how the activities help with their children's development.

Then the children join them and they work together in school and at home on a wide variety of activities.

Ask any child which is their favourite day at school and you will be met with a resounding 'Thursday because it's SHARE day'.
